

PhycoTerra®

# Exceptional Compatibility

## Nitrogen Fertilizers

AN20 UN 32

AMS UN 28

ATS

## Phosphate Fertilizers

10-34-0 11-37-0

Phosphoric acid

## Potassium Fertilizers

\*KTS® blend w/ water

KNO<sub>3</sub>-

## Acid Fertilizers

N-phuric®

## Calcium Fertilizers

CAN 17 CN9

CaTS® w/ water

## Organic Fertilizers

Fish emulsions

Fermented waste

Soy hydrolysate

Corn steep liquor

## Proprietary Blends

Humic acids, seaweeds \* fulvic acids

Root stimulants & soil conditioners

Soil enzymes & inoculants\*\*

- Agitate product (on label)
- Agitate tank mix
- \*\*Adjust pH
- Can mix with common ag chem products (e.g., glyphosate)
- Pasteurized for shelf life

Does not mix  
with straight  
KTS®

# Product Compatibility

*Active Ingredients Compatible with PhycoTerra® & PhycoTerra® Organic at suggested label rates.*

## Fungicides

Azoxystrobin	Metalaxyl
Boscalid	Myclobutanil
Cyprodinil	Propiconazole
Difenoconazole	Prothioconazole
Fenhexamid	Pyraclostrobin
Fludioxonil	Quinoxifen
Fluxastrobin	Sedaxane
Mefenoxam	Triflumizole

## Herbicides

2,4-Dichlorophenoxyacetic acid
Acetochlor
Ammonium salt of imazamox
Atrazine
Clethodim
Glyphosate
Florasulam
Flumioxazin
Mesotrione
Pyroxasulfone
S-metolachlor
Terbacil
Tribenuron-methyl 50%**

## Insecticides

Acetamiprid
Bifenazate
Clothianidin
Esfenvalerate
Imidacloprid
Methoxyfenozide
Novaluron
Permethrin
Spirotetramat
Thiamethoxam

# Product Compatibility

*Active Ingredients Compatible with PhycoTerra® & PhycoTerra® Organic at suggested label rates.*

## Soil Surfactants

Alkoxylated polyols

Alkyl polyglucoside

Ethoxylate

Glucoethers

Poloxalene

## Living Inoculants\*

*Bacillus firmus strains*

*Bacillus subtilis strains*

*Bradyrhizobia species*

*Beauveria bassiana strains*

*Gliocladium virens strains*

*Streptomyces lydicus strains*

*Mycorrhizae promoters*

## Adjuvants

Multispread

Organosilican

Nufilm P
